I. CATALOG DESCRIPTION

Course Number: HLTH1060/MEDO2500

Course Title: Comprehensive Medical Terminology

Prerequisite(s): None

Catalog Description: This course establishes a solid foundation of prefixes, suffixes, word roots, abbreviations, medical terms, and symbols. It emphasizes understanding the medical vocabulary as it applies to the anatomy, physiology, pathology, diagnostic, and therapeutic procedures of all the human body systems.

Credit Hours: 3 semester or 4.5 quarter hours

Contact Hours: 45

II. COURSE OBJECTIVES / COMPETENCIES

Course will

- 1. Expose students to medical terminology used in healthcare with opportunities for practical application.
- 2. Expose students to basic rules of word construction and vocabulary of the body systems.
- 3. Develop learning activities for students to construct system specific medical terms, using the correct suffixes, prefixes, word roots, and combining forms.
- 4. Create learning activities for correct pronunciation and spelling of medical terms.
- 5. Engage students in practical application of standard abbreviations, as it relates to medical communication used in healthcare documents.
- 6. Facilitate practical application of critical-thinking and problem-solving skills.

III. STUDENT LEARNING OUTCOMES

Students will be able to

- 1. Interpret meanings of the suffixes, prefixes, word roots, and combining forms as they relate to anatomy, physiology, and pathology of the human body.
- 2. Demonstrate the ability to correctly define, pronounce, and spell medical terms.
- 3. Demonstrate proficiency in defining medical terms and the relationships among terms relating to anatomy, physiology, and pathology.
- 4. Explain clinical procedures, laboratory tests, and abbreviations utilized in the field of health care.
- 5. Interpret medical communications used to document health care.
- 6. Integrate critical-thinking and problem-solving skills essential to career success in the healthcare field.

IV. COURSE CONTENT / TOPICAL OUTLINE

- A. Introduction to medical terminology
- B. Body organization
- C. Integumentary System
- D. Musculoskeletal System
- E. Cardiovascular System
- F. Blood and Lymphatic and Immune Systems
- G. Respiratory System
- H. Digestive System
- I. Urinary System
- J. Reproductive System
- K. Endocrine System
- L. Nervous System
- M. Special Senses (Eyes and Ears)
- N. Special Topics

V. INSTRUCTIONAL MATERIALS

A. The Language of Medicine, (current edition)

Author: Davi-Ellen Chabner

B. Medical Terminology for Health Professions, (current edition)

Authors: Ann Ehrlich, Carol L. Schroeder

C. Medical Terminology, A Living Language, (current edition)

Authors: Bonne F. Fremgen and Suzanne S. Frucht
